VALNEX

MISSION

Develop innovative and reliable technological solutions that optimize our clients' logistics, administrative, and operational management, providing web and mobile tools that guarantee efficiency, security, and traceability in every process.

VISION

To consolidate our position as the leading company in Mexico and Latin America in the development of specialized software for the automotive, logistics, and transportation industries, standing out for our innovation, the quality of our solutions, and the trust of our customers.

TARGET AUDIENCE

TRANSPORT COMPANIES

TERMINALS AND YARDS

MEDIUM AND LARGE COMPANIES

A set of five person icons: three white icons in the top row and two grey icons in the bottom row, representing the target audience.

We digitize your logistics processes with secure, scalable, and customized web and mobile solutions.

OUR SERVICES

At VALNEX, we develop specialized technological solutions to optimize the operation of automotive yards, container yards, and customized business projects.

COMPREHENSIVE MANAGEMENT OF AUTOMOTIVE YARDS

Control of income, expenses, inventory, and vehicle location in real time.

COMPREHENSIVE MANAGEMENT OF CONTAINER YARDS

Monitoring of container inputs, outputs, and location with full traceability.

ELECTRONIC BILLING AND BILL OF LADING SUPPLEMENT

Issue CFDI 4.0 and Carta Porte with SAT compliance and connection via API.

CUSTOM BUSINESS DEVELOPMENTS

Customized solutions that adapt to your processes and needs.

GOALS

At VALNEX, we work with the conviction of driving digital transformation in the automotive, logistics, and transportation industries, offering reliable, scalable solutions tailored to each client's needs. Our strategic objectives pave the way for innovation and excellence.

01

Technological innovation

Develop web and mobile software with cutting-edge technologies that optimize the management of automotive yards, container yards, and electronic invoicing.

02

Customer satisfaction

Brindar un servicio de calidad, acompañamiento cercano y soluciones a la medida que generen confianza y fortalezcan relaciones a largo plazo.

03

Regulatory compliance

Ensure that all our solutions are always up to date with SAT regulations (CFDI 4.0, Carta Porte, and other tax provisions).

04

Sustainable growth

Consolidate VALNEX as a benchmark in Mexico and Latin America, expanding our presence in the logistics and technology sectors with a scalable business model.

US

VS THE COMPETITION

VALNEX

- Specialized solutions for automotive and container yards, with integrated mobile apps.

- Close support and personalized attention with fast response times.

- Scalable and secure cloud platform, ready to grow with your business.

OTHER SOFTWARE PROVIDERS

- Soluciones genéricas, poco enfocadas en el sector automotriz o logístico.

- Generic solutions, little focused on the automotive or logistics sectors.

- Limited and late support

PLAN OF ACTION

ANALYSIS AND RESEARCH

We thoroughly analyze each client's processes, identifying areas for improvement and specific needs, to design solutions aligned with the business reality.

DEVELOPMENT

We design and build web software and mobile applications with modern technologies, prioritizing scalability, security and ease of use.

TESTING AND IMPLEMENTATION

We conduct testing, training, and controlled deployment to ensure smooth adoption.

RESULT

Our clients gain greater control, efficiency, and traceability in their operations. They reduce time, costs, and errors.

CONCLUSION

At VALNEX, we are convinced that digital transformation is the path to optimizing logistics, administration, and operations for companies in the automotive, port, and transportation sectors.

Our technological solutions—VALNEX Vehicles, VALNEX Containers, VALNEX Billing Software, and VALNEX Custom Software—offer our clients efficiency, control, traceability, and regulatory compliance in every process.
